

Paradigm Precision 401(k) Retirement Plan

ENROLL NOW TO TAKE FULL ADVANTAGE
OF YOUR RETIREMENT SAVINGS PLAN BENEFITS

YOUR GUIDE TO GETTING STARTED

Save for retirement through Paradigm Precision 401(k) Retirement Plan easily, regularly, and automatically.

With all the responsibilities and financial priorities you might be juggling – mortgage payments, parenthood, saving or paying for college, caring for parents, and more – it can be easy to overlook the need to save for retirement. But it's important to consider setting aside money for retirement as early and regularly as you can, because the quality of your retirement years could very well depend on how much you have been able to save.

As you consider enrolling in Paradigm Precision 401(k) Retirement Plan and selecting investment options for your account, please review this Enrollment Guide. It contains valuable information that may help you better understand the basics of investing, as well as help you make the most of your company's retirement savings plan.

LOOK INSIDE FOR:

- Participating in your plan
- Investment Options
- Next Steps
- Rollover contribution form

Please review this information carefully.

PARTICIPATING IN YOUR **plan**

There are many benefits to participating in the Paradigm Precision 401(k) Retirement Plan. One of the primary benefits is that you will receive help reaching your financial goals for retirement. By reviewing the important information in this guide and visiting Fidelity NetBenefits® at www.401k.com, you can take advantage of what your company and Fidelity have to offer.

When am I eligible for the Plan?

You are eligible to make *deferrals* to the Plan if:

- you are employed by the Employer
- you are at least 21 years old
- and you are not:
 - covered by a collective bargaining agreement (unless the agreement specifically provides for you to be covered by the plan)
 - a leased employee
 - a nonresident alien who does not receive any earned income from your Employer

You are eligible to receive *matching* contributions if:

- you complete 12 months of service
- you are at least 21 years old
- and you are not:
 - covered by a collective bargaining agreement (unless the agreement specifically provides for you to be covered by the plan)
 - a leased employee
 - a nonresident alien who does not receive any earned income from your Employer

How do I enroll?

To enroll, log on to Fidelity NetBenefits® at www.401k.com. You can also set up your beneficiary information by going to Fidelity NetBenefits® at www.401k.com or calling a Fidelity Representative at 1-800-835-5097 to request a Designation of Beneficiary Form to fill out and return to Fidelity.

Your plan has an automatic enrollment feature. If the automatic enrollment feature applies to you and you do not take action, you will be automatically enrolled at 3%. If the automatic enrollment feature applies to you, you will receive a separate notification indicating when deferrals

will begin to be made on your behalf. If you do not select an investment, your Plan Sponsor has directed Fidelity to place your contributions in the American Funds Target Date Retirement target date fund that most closely aligns with your projected retirement date based upon your birth year.

If you would prefer to elect not to participate at this time or to specifically elect a contribution rate and/or investment options, please contact Fidelity by logging onto www.401k.com or call 1-800-835-5097.

When is my enrollment effective?

Once you satisfy the *401(k) contribution* requirements, you will become eligible to participate in that portion of the Plan on the first day of the following month.

Once you satisfy the *matching* requirements, you will become eligible to participate in that portion of the Plan immediately.

How much can I contribute?

Through automatic payroll deduction, you may contribute between 1% and 95% of your eligible pay on a pretax basis, up to the annual IRS dollar limit (2022 = \$20,500). You may change your deferral percentage as applicable. Any changes made would take effect at the beginning of each payroll period.

Your company's plan has established an Annual Increase Program which will automatically increase your contributions by 1% on January 1. Each year on the designated date, your contributions will increase by the amount your company has established which may be limited to a deferral percentage communicated to you by notice. If you want to contribute more to the Annual Increase Program or if you wish to opt out of the program,

follow the instructions outlined in the notification letter.

If you are age 50 or over by the end of the taxable year and have reached the annual IRS limit or Plan's maximum contribution limit for the year, you may make additional salary deferral contributions to the Plan up to the IRS Catch-Up Contribution Limit (2022= \$6,500).

Unlike your traditional, pretax 401(k) deferrals, the Roth 401(k) feature allows you to contribute after-tax dollars, but then withdraw tax-free dollars from your account when you retire, provided the distribution is "qualified." A qualified distribution is one that is taken after the five taxable year period beginning January 1 of the year for which your first designated Roth contribution to the plan is made (or to a previous plan, if that amount was subsequently rolled over to the distributing plan) AND you turn age 59 ½, become disabled, or die. If you are eligible to make traditional pretax 401(k) contributions, you can also make Roth 401(k) contributions. Your total contributions to the plan (both Roth 401(k) deferrals and traditional pretax contributions) cannot exceed IRS limits, or your plan's limit, if less.

Can I move money from another retirement plan into this one?

You may be permitted to roll over eligible contributions into this Plan from a previous employer's retirement plan. For other eligible account types, please see your Summary Plan Description. Once you have confirmed that your Employer will accept your rollover contribution, you can get started in the "Rollovers" section online. ***Be sure to consider all your available options and the applicable fees and features of each before moving your retirement assets.***

Does the Company contribute to my account?

The Employer may make a discretionary pretax matching contribution to your account. The amount would be equal to a percentage determined annually by a Board of Directors' Resolution.

To be eligible for discretionary matching contributions you are required to:

- make employee pretax deferral contributions or Roth 401(k) after-tax deferral contributions. The plan will

match on the combined total of these contributions up to the matching limit.

For purposes of determining your matching contributions under the Plan, your pretax contributions will include Age 50 and over Catch-Up Contributions described above.

When am I vested?

The term "vesting" refers to the portion of your account balance that you are entitled to under the plan's rules.

You are always 100% vested in your:

- employee pretax account
- Employer matching contribution account
- rollover account
- Roth 401(k) after-tax deferral account
- and any earnings thereon.

Can I take a loan from my account?

Although your plan account is intended for your retirement, you may take a loan from your account.

Can I make withdrawals from my account?

Withdrawals from the Plan are generally permitted in the event of termination of employment, retirement, or death. You may also be eligible for a withdrawal in the case of a severe financial hardship as defined by your Plan.

How do I access my account?

Within NetBenefits® you have access to your account information, retirement planning tools, and e-Learning workshops® that provide you access to self-paced training on savings and investing principles.

You may call the Retirement Benefits Line at 1-800-835-5097 between 8:30 a.m. and 8:00 p.m. on any business day when the New York Stock Exchange is open. Fidelity Representatives can assist you with transactions and answer many of your questions regarding retirement savings.

How do I learn more?

Within NetBenefits®, you have access to your account information and retirement planning tools including:

- **Live and self-paced learning workshops.** The workshops cover a variety of topics including determining your retirement

savings needs, evaluating your investment options and keeping your investment strategy on track to help you achieve your retirement goals.

In addition, you can take advantage of local Investor Centers by scheduling time with a Fidelity Representative to discuss your total investment needs beyond your retirement savings plan. Or, if you prefer, call 1-800-Fidelity for a complimentary portfolio review.

How do I change my investment options?

You can make changes to your investment selections within NetBenefits® or by calling the Retirement Benefits Line at 1-800-835-5097.

Create an asset strategy that's right for you:

- Visit the Library section within NetBenefits®

How do I manage my account?

Within NetBenefits®, you may sign up to receive alerts via email when your retirement savings account strays from the investment allocation you established.

To update your beneficiary information, go to the Profile section within NetBenefits® and enter your beneficiary information at any time.

INVESTMENT options

Before investing in any investment option, consider the investment objectives, risks, charges, and expenses. Contact Fidelity for a mutual fund prospectus or, if available, a summary prospectus containing this information. Read it carefully.

What follows is an introduction to the investment options you can choose for your plan account. You can spread your investments among several options to take advantage of what each has to offer and help balance different types of risk. Reviewing this information can help you understand and compare your options. For more complete information about any of the mutual funds available through the plan, including fees and expenses, log on to Fidelity NetBenefits® at www.401k.com for prospectuses. Read them carefully before you invest.

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories and not on the actual investment options and their holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of the date indicated. There may be a number of funds in each category and each may have a significantly different risk profile as compared to other funds within that category as well as compared to funds in other categories on the spectrum. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decisions. The spectrum does not represent actual or implied performance.

ADDITIONAL INVESTMENT **options:**

Target Date funds offer a blend of stocks, bonds, and short-term investments within a single fund. They are designed for investors who don't want to go through the process of picking several funds from the three asset classes but who still want to diversify among stocks, bonds, and short-term investments.

Categories to the left have potentially more inflation risk and less investment risk	Categories to the right have potentially less inflation risk and more investment risk

	American Funds 2040 Target Date Retirement Fund® Class R-6	American Funds 2060 Target Date Retirement Fund® Class R-6
		American Funds 2065 Target Date Retirement Fund® Class R-6

Target date investments are generally designed for investors expecting to retire around the year indicated in each investment's name. The investments are managed to gradually become more conservative over time. The investment risks of each target date investment change over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risk associated with investing in high yield, small cap and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.

NEXT **steps**

Investing in yourself is easy with your retirement plan. You can count on us to support you every step of the way with our account management website, Fidelity NetBenefits®. First log in to www.401k.com and we'll show you how to get started step by step.

Step 1: Enroll online today. Go to www.401k.com and click on "Register Now" when logging in for the first time. Follow the instructions to enroll online. Call the Retirement Benefits Line if you need assistance at 1-800-835-5097.

Step 2: Decide how much to invest and enter your contribution per pay period.

Step 3: Select how you want to invest your contributions among the investment options available in the plan. Investment performance and fund descriptions are available online or over the phone. If you are interested in additional information about investing, go to the NetBenefits® Library to learn more.

Enroll today, and start saving for your retirement.

DESCRIPTIONS OF INVESTMENT **options**

STABLE VALUE FUNDS

**Standard Insurance
Company Stable Asset
Fund II
O3XZ**

Objective:

The Stable Asset Fund is designed to provide plan participants with a guaranteed return of principal, along with competitive crediting rates and 100% liquidity. It seeks the preservation of capital plus competitive intermediate-term returns.

Strategy:

The Fund is invested in a portfolio of publicly traded bonds, plus small commercial mortgage loans within Standard Insurance Company's general account. The Funds guaranteed annualized net crediting rate is declared in advance and is reset quarterly. The declared crediting rate will never be below 1%. Principal and interest are guaranteed by Standard Insurance Company.

Risk:

The fund is backed by a diversified portfolio of fixed-income assets held in the general account of the issuer. Guarantees are subject to the claims paying ability of the issuer. Restrictions or fees may apply to exchanges or withdrawals. The Contracts provide for the payment of certain withdrawals and exchanges at book value during the terms of the Contracts. In order to maintain the Contract issuers' promise to pay such withdrawals and exchanges at book value, the Contracts subject the fund and its participants to certain restrictions. For example, withdrawals prompted by certain events (e.g., layoffs, early retirement windows, spin-offs, sale of a division, facility closings, plan terminations, partial plan terminations, changes in laws or regulations) may be paid at the market value of the fund's securities, which may be less than your book value balance or may restrict withdrawals in these events. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee:

Who may want to invest:

- Someone who seeks a slightly higher yield over the long term than is offered by money market funds, but who is willing to accept slightly more investment risk.
- Someone who is interested in balancing an aggressive portfolio with an investment that seeks to provide a declared crediting rate that is reset on a periodic basis.

Footnotes:

The investment option is an annuity. The fund is managed by Standard Insurance Company. This description is only intended to provide a brief overview of the fund.

This investment option is not a mutual fund.

Short-term Redemption Fee Notes:

None

BOND FUNDS

**Fidelity® Total Bond K6
Fund
2944**

Objective:

Seeks a high level of current income.

Strategy:

Normally investing at least 80% of assets in debt securities of all types and repurchase agreements for those securities. Using the Bloomberg Barclays U.S. Universal Bond Index as a guide in allocating assets across the investment grade, high yield, and emerging market asset classes. Investing up to 20% of assets in lower quality debt. Managing the fund to have similar overall interest rate risk to the index. Investing in domestic and foreign issuers. Allocating assets across different asset classes, market sectors, and maturities. Analyzing the credit quality of the issuer, the issuer's potential for success, the credit, currency, and economic risks of the security and its issuer, security-specific features, current and potential future valuation, and trading opportunities to select investments. Engaging in transactions that have a leveraging effect on the fund, including investments in derivatives such as swaps (interest rate, total return, and credit default), options, and futures contracts and forward-settling securities, to adjust the fund's risk exposure. Investing in Fidelity's central funds (specialized investment vehicles used by Fidelity funds to invest in particular security types or investment disciplines).

Risk:

In general, the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk, liquidity risk, call risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Lower-quality bonds can be more volatile and have greater risk of default than higher-quality bonds. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks, all of which are magnified in emerging markets. Leverage can increase market exposure and magnify investment risk.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Bloomberg U.S. Universal Bond Index is an unmanaged market value-weighted performance benchmark for the U.S. dollar-denominated bond market, which includes investment-grade, high yield, and emerging market debt securities with maturities of one year or more.

Short-term Redemption Fee Notes:

None

**PIMCO Diversified
Income Fund
Institutional Class
OSIP**

Objective:

The investment seeks maximum total return, consistent with preservation of capital and prudent investment management.

Strategy:

The fund normally invests at least 65% of its total assets in a diversified portfolio of Fixed Income Instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts or swap agreements. It may invest in both investment-grade securities and high yield securities ("junk bonds") subject to a maximum of 10% of its total assets in securities rated below B by Moody's Investors Service, Inc., or equivalently rated by S&P or Fitch, or, if unrated, determined by PIMCO to be of comparable quality.

Risk:

The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone looking for a fund investing in a mix of bonds that range from conservative to high risk and who can tolerate the risks associated with fixed-income investments.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Short-term Redemption Fee Notes:

None

**PIMCO International
Bond Fund (U.S. Dollar-
Hedged) Institutional
Class
OF8C**

Objective:

The investment seeks maximum total return, consistent with preservation of capital and prudent investment management.

Strategy:

The fund seeks to achieve its investment objective by investing under normal circumstances at least 80% of its assets in Fixed Income Instruments. It will invest under normal circumstances in Fixed Income Instruments that are economically tied to at least three non-U.S. countries. The fund invests primarily in investment grade debt securities, but may invest up to 10% of its total assets in junk bonds as rated by Moody's, S&P or Fitch, or, if unrated, as determined by PIMCO. It is non-diversified.

**Risk:**

Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Suitable hedging transactions used to reduce or hedge a fund's exposure to changes in the value of the currency may not be available in all circumstances, may not be successful, and may eliminate any chance for the fund to benefit from favorable fluctuations in relevant foreign currencies. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00**Who may want to invest:**

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to complement his or her core bond holdings with international bond investments and who can tolerate the greater risks associated with foreign investments.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Short-term Redemption Fee Notes:

None

BALANCED/HYBRID FUNDS**Vanguard Wellington™
Fund Admiral™ Shares
OQFS****Objective:**

The investment seeks to provide long-term capital appreciation and moderate current income.

Strategy:

The fund invests 60% to 70% of its assets in dividend-paying and, to a lesser extent, non-dividend-paying common stocks of established large companies. The remaining 30% to 40% of the fund's assets are invested mainly in fixed income securities that the advisor believes will generate a moderate level of current income. These securities include investment-grade corporate bonds, with some exposure to U.S. Treasury and government agency bonds, and mortgage-backed securities.

Risk:

Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking to invest in a fund that invests in both stocks and bonds.
- Someone who is seeking the potential both for income and for long-term share-price appreciation and who is willing to accept the volatility of the bond and stock markets.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/14/2001. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 07/01/1929, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Short-term Redemption Fee Notes:

None

DOMESTIC EQUITY FUNDS

**Alger Capital
Appreciation
Institutional Fund Class**

I
OFEL

Objective:

The investment seeks long-term capital appreciation.

Strategy:

The fund normally invests at least 85% of its net assets, plus any borrowings for investment purposes, in equity securities of companies of any market capitalization that the adviser believes demonstrate promising growth potential.

Risk:

Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**BlackRock Advantage
Small Cap Core Fund
Institutional Shares
OFOY**

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Short-term Redemption Fee Notes:

None

Objective:

The investment seeks capital appreciation over the long term.

Strategy:

Under normal circumstances, the fund seeks to invest at least 80% of its net assets plus any borrowings for investment purposes in equity securities or other financial instruments that are components of, or have market capitalizations similar to, the securities included in the Russell 2000® Index. It primarily seeks to buy common stock and may also invest in preferred stock and convertible securities. From time to time the fund may invest in shares of companies through "new issues" or initial public offerings ("IPOs").

Risk:

The securities of smaller, less well-known companies can be more volatile than those of larger companies. Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Russell 2000® Index is an unmanaged market capitalization-weighted index of 2,000 small company stocks of U.S. domiciled companies.

Short-term Redemption Fee Notes:

None

**Carillon Scout Mid Cap
Fund Class R-6
OE5I**

Objective:

The investment seeks long-term growth of capital.

Strategy:

Under normal circumstances, at least 80% of the fund's net assets will be invested in mid cap equity securities. The fund's portfolio managers consider mid-capitalization companies to be those companies that, at the time of initial purchase, have market capitalizations greater than \$1 billion and equal to or less than the largest company in the Russell Midcap[®] Index during the most recent 12-month period. It maintains a portfolio of investments diversified across companies and economic sectors.

Risk:

Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Russell Midcap Index is an unmanaged market capitalization-weighted index of 800 medium-capitalization stocks. The stocks are also members of the Russell 1000 index.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/20/2017. Short-term Redemption Fee Notes:

None

**Fidelity® 500 Index
Fund
2328**

Objective:

Seeks to provide investment results that correspond to the total return (i.e., the combination of capital changes and income) performance of common stocks publicly traded in the United States.

Strategy:

Normally investing at least 80% of assets in common stocks included in the S&P 500 Index, which broadly represents the performance of common stocks publicly traded in the United States.

Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.

Returns prior to May 4, 2011 are those of the Premium Class and reflect the Premium Class' expense ratio. Had the Institutional Premium Class' expense ratio been reflected, total returns would have been higher.

Short-term Redemption Fee Notes:

None

**Fidelity® Mid Cap Index
Fund
2352**

Objective:

The fund seeks to provide investment results that correspond to the total return of stocks of mid-capitalization United States companies.

Strategy:

Normally investing at least 80% of assets in securities included in the Russell Midcap Index. Lending securities to earn income for the fund.

Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Investments in smaller companies may involve greater risks than those in larger, more well known companies.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

**Fidelity® Small Cap
Index Fund
2358**

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Russell Mid Cap Index is an unmanaged index that measures the performance of the 800 smallest companies in the Russell 1000 Index, which represent approximately 26% of the total market capitalization of the Russell 1000 Index.

Short-term Redemption Fee Notes:

None

Objective:

The fund seeks to provide investment results that correspond to the total return of stocks of small-capitalization United States companies.

Strategy:

Normally investing at least 80% of assets in securities included in the Russell 2000 Index. Lending securities to earn income for the fund.

Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Investments in smaller companies may involve greater risks than those in larger, more well known companies.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Russell 2000® Index is an unmanaged market capitalization weighted index measuring the performance of the smallest 2,000 companies in the Russell 3000 index.

Short-term Redemption Fee Notes:

None

Objective:

The investment seeks capital appreciation and current income.

Strategy:

Under normal circumstances, at least 80% of the fund's assets will be invested in the equity securities of corporations that regularly pay dividends, including common stocks and debt securities and preferred stock convertible to common stock. "Assets" means net assets, plus the amount of borrowings for investment purposes. Although the fund invests primarily in securities of large cap companies, it may invest in equity investments of companies across all market capitalizations.

**JPMorgan Equity
Income Fund Class R6
OUZ2**

**Risk:**

Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is comfortable with the volatility of large-cap stocks and value-style investments.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 01/31/2012. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 07/02/1987, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Short-term Redemption Fee Notes:

None

INTERNATIONAL/GLOBAL FUNDS

**ClearBridge
International Growth
Fund Class I
OE05**

Objective:

The investment seeks long-term growth of capital.

Strategy:

The fund normally invests primarily in common stocks of foreign companies that, in the portfolio managers' opinion, appear to offer above average growth potential and trade at a significant discount to the portfolio managers' assessment of their intrinsic value. It may invest in common stocks of foreign companies of any size located throughout the world. The fund is non-diversified.

Risk:

Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 03/04/2004. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 04/17/1995, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Short-term Redemption Fee Notes:

None

Objective:

Seeks to provide investment results that correspond to the total return of foreign stock markets.

Strategy:

Normally investing at least 80% of assets in common stocks included in the Morgan Stanley Capital International Europe, Australasia, Far East Index, which represents the performance of foreign stock markets.

Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks, all of which are magnified in emerging markets.

Short-term Redemption Fee: 0.00

Who may want to invest:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The MSCI Europe, Australasia and Far East Index is an unmanaged market capitalization-weighted index designed to represent the performance of developed stock markets outside the United States and Canada.

**Invesco Developing
Markets Fund Class R6
OYT5**

Returns prior to September 8, 2011 are those of the Premium Class and reflect the Premium Class' expense ratio. Had the Institutional Premium Class' expense ratio been reflected, total returns would have been higher.

Short-term Redemption Fee Notes:

None

Objective:

The investment seeks capital appreciation.

Strategy:

The fund mainly invests in common stocks of issuers in developing and emerging markets throughout the world and at times it may invest up to 100% of its total assets in foreign securities. Under normal market conditions, it will invest at least 80% of its net assets, plus borrowings for investment purposes, in equity securities of issuers whose principal activities are in a developing market, i.e. are in a developing market or are economically tied to a developing market country, and in derivatives and other instruments that have economic characteristics similar to such securities.

Risk:

Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is willing to accept the higher degree of risk associated with investing in emerging markets.
- Someone who is seeking to complement a portfolio of domestic investments and/or international investments in developed countries with investments in developing countries, which can behave differently.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 12/29/2011. Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Short-term Redemption Fee Notes:

None

SPECIALTY FUNDS

Principal Global Real Estate Securities Fund Institutional Class OYX0

Objective:

The investment seeks to generate a total return.

Strategy:

Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of U.S. and non-U.S. companies principally engaged in the real estate industry at the time of purchase. For the fund's investment policies, a real estate company has at least 50% of its assets, income or profits derived from products or services related to the real estate industry.

Risk:

Real Estate is a cyclical industry that is sensitive to interest rates, economic conditions (both nationally and locally), property tax rates, and other factors. Changes in real estate values or economic downturns can have a significant negative effect on issuers in the real estate industry. Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking to complement his or her core holdings and is comfortable with the greater risk typically associated with investments tied to the value of holding, managing, and developing real estate.
- Someone who is willing to accept the lower diversification and potentially higher risk of investments concentrated in the real estate industry.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Short-term Redemption Fee Notes:

None

TARGET DATE FUNDS

American Funds 2010 Target Date Retirement Fund® Class R-6 OK0S

Objective:

The investment seeks growth, income and conservation of capital.

Strategy:

The fund normally invests a greater portion of its assets in fixed income, equity-income and balanced funds as it continues past its target date. The advisor attempts to achieve its investment objectives by investing in a mix of American Funds in different combinations and weightings. The underlying American Funds represent a variety of fund categories, including growth-and-income funds, equity-income funds, balanced funds and fixed income funds. The fund categories represent differing investment objectives and strategies.

Risk:

The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking an investment option intended for people in or very near retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 07/13/2009. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 02/01/2007, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Short-term Redemption Fee Notes:

None

**American Funds 2055
Target Date Retirement
Fund® Class R-6
OK45**

Objective:

The investment seeks growth, income and conservation of capital.

Strategy:

The fund normally invests a greater portion of its assets in fixed income, equity-income and balanced funds as it approaches and passes its target date. The advisor attempts to achieve its investment objectives by investing in a mix of American Funds in different combinations and weightings. The underlying American Funds represent a variety of fund categories, including growth funds, growth-and-income funds, equity-income funds, balanced funds and fixed income funds. The fund categories represent differing investment objectives and strategies.

Risk:

The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Footnotes:

Plan Name (i.e., "the Plan"): Paradigm Precision 401(k) Retirement Plan

Plan#: 92390

Incoming Rollover Instructions

"Rolling over" money into the Plan is a three-step process. Please follow these instructions to ensure that this process is completed in a timely and accurate manner. *Please Note:* Failure to follow these instructions may result in a delay in the processing of your request and may jeopardize your ability to roll over your distribution.

Step 1. Request your distribution

Request a direct rollover distribution from your previous eligible retirement plan. See the Incoming Rollover Contribution Application for a list of the types of plans or accounts from which rollovers may be made to your employer's plan. Please keep in mind that you can only rollover your Roth 401(k) or After-tax contributions into the plan if your plan allows for these types of rollovers. Check with your Benefits Department to see if these types of rollovers are allowed. There are two distribution check payable options:

Option 1.

The check can be made payable to Fidelity Investments Institutional Operations Company, Inc. (or FIIOC), for the benefit of (YOUR NAME). The check must be from the distributing trustee or custodian. (Personal checks are not acceptable.) **Note:** This type of distribution avoids automatic income tax withholding. Also, it avoids the possible 10% early withdrawal penalty if you are under the age of 59 1/2.

Option 2.

If the distribution was originally made payable directly to you, you must send your rollover contribution to Fidelity via a certified check or money order only for the amount you are rolling over payable to FIIOC. (Personal checks are not acceptable.) **Note:** If your distribution is initially received as a check made payable to you, your rollover must be completed within 60 days of receipt of the distribution. Your previous administrator will be required to withhold income taxes. As a result, you will not be able to roll over 100% of your eligible distribution unless you have extra savings available to make up the amount withheld. You must also roll over that amount within 60 days of receipt of your distribution. If you do not make up the amount withheld, that amount will be considered a withdrawal from the previous program and the taxable portion will be subject to ordinary income taxes and possibly a 10% early withdrawal penalty.

Fidelity does not accept wire transfers of funds. You must request a CHECK from your previous plan or IRA. The check should be mailed directly to you. Once you have received the check, please follow the directions in Step 2.

Step 2. Initiate your rollover request

Please log on to www.401k.com to initiate your rollover request or complete the Incoming Rollover Contribution Application. Please be sure to complete all items, and sign the form if indicated.

Please Note: This rollover contribution will be invested based on the investment elections you have on file for rollover contributions to the Plan. If you have not previously made investment elections for your rollover contribution please log on to NetBenefits® at www.401k.com to do so. Otherwise, it will be invested based on your elections for elective deferral contributions. If you have not made investment elections for either rollover or deferral contributions, this amount will be invested in the Plan-designated default investment option. If you wish to make investment elections for your rollover contribution, please do so by contacting Fidelity Investments prior to submitting this form.

If you are not sure of the plan type that you are rolling out of, please contact your previous Plan Sponsor or IRA custodian for verification. Some plan types are not eligible for rollover.

You should make a copy of the check and the Incoming Rollover Contribution Application for your records.

Step 3. Mail the information

Mail (1) the Incoming Rollover Contribution Application and (2) the check to:

FIRST CLASS MAIL WITH STAMP:

Fidelity Investments Client Service Operations
P.O. Box 770003 Cincinnati, OH 45277-0065

Overnight Address:

Fidelity Investments
Client Service Operations (KC1F-L)
100 Crosby Parkway Covington, KY 41015

Please include all the information requested. Incomplete forms and the accompanying check will be returned to you and may jeopardize your ability to roll over your distribution.

Once your contribution is accepted into the Plan, you can log on to Fidelity NetBenefits® at www.401k.com to view your rollover contribution and investment election(s). Please allow at least seven business days for processing. If you have any questions about rollover contributions, call **1-800-835-5097**. Please be sure you have beneficiary information for the Plan on file.

Plan Name (i.e. the Plan): Paradigm Precision 401(k) Retirement Plan

Plan #: 92390

Incoming Rollover Contribution Application

Section One: Participant Information (please print)

The following section must be completed entirely to ensure that your account is properly set up

Social Security #: [][][]-[][]-[][][][][]

Hire Date: ___/___/___ Birth Date: ___/___/___

Participant Name (first, MI, last): _____

Participant Address: _____

City: _____ State: _____ ZIP: _____

Phone (day): _____ Phone (evening): _____

Section Two: Rollover Contribution Information

Acceptable rollover funds

The Plan will accept taxable* money from the following types of plans: 401(a) plans (e.g., 401(k)); 403(a) plans; governmental 457(b) plans; 403(b) plans (e.g., plans of tax-exempt organizations); conduit IRAs (rollover IRAs); non-conduit IRAs (traditional IRAs, Simplified Employee Pension plans (SEP-IRAs)) and "SIMPLE" IRA distributions made more than two years from the date you first participated in the SIMPLE IRA; distributions of taxable monies made to you as (1) a Spousal beneficiary from a current or former spouse from these types of plans, or (2) an alternate payee pursuant to a qualified domestic relations order (QDRO). In addition, the Plan will accept the following money types if indicated below: Roth 401(k), Roth 403(b), or Roth 457(b); After-tax contributions from 401(a) and 403(a) plans.

*Taxable money is defined as pretax contributions (employee and employer), earnings on pretax contributions, and taxable earnings on after-tax contributions from your previous employer's plan.

Please note: Making rollover contributions to the Plan that consist of assets other than qualified 401(a), or 403(a) plan assets, or conduit IRA (rollover IRA) assets, may result in the loss of capital gains or 10-year income-averaging tax treatment associated with lump sum distributions from the Plan. If you may be eligible for this special tax treatment, you should consult your tax adviser and carefully consider the impact of making a rollover contribution to the Plan. Please talk to your tax adviser for additional information and review the special tax notice to determine if you're eligible.

Enclosed Contribution

\$	[][][]	[][][]	[][][]	[][][]	[][][]	[][][]	[][][]	[][][]	[][][]	Pre-tax Dollars

\$	[][][]	[][][]	[][][]	[][][]	[][][]	[][][]	[][][]	[][][]	[][][]	Roth 401(k), 403(b), Government 457(b) Contributions excluding earnings
	[][][]	[][][]	[][][]	[][][]	[][][]	[][][]	[][][]	[][][]	[][][]	Date of First Roth 401(k), 403(b), Government 457(b) contribution

Unacceptable rollover sources

The Plan cannot accept money from the following sources: rollovers from nonspousal beneficiary accounts, payments over a life expectancy or a period of 10 or more years, or mandatory age 72* distributions. Also unacceptable are Roth IRAs, HSAs and Coverdell Education Savings Accounts (CESAs). In-kind distributions of employer stock are not acceptable; therefore, stock must be sold and the proceeds (including any appreciation realized through the date of distribution) may be rolled over.

*The change in the MRD age requirement from 70½ to 72 only applies to individuals who turn 70½ on or after January 1, 2020. Please speak with your tax advisor regarding the impact of this change on future MRDs.

Section Three: Investment Elections

I direct Fidelity to invest my rollover contribution into my current investment mix applicable to rollover contributions. If I have not previously made investment elections for the rollover contribution it will be invested based on my elections for elective deferral contributions. If I have not selected an investment mix on my own via NetBenefits® or by telephone, I understand that this rollover contribution will be invested in the Plan's default investment option as directed by my employer.

Section Four: Participant Certification

I authorize the investment election for this rollover and acknowledge that I have received information detailing my available investment options. I acknowledge that my rollover contribution will be invested in accordance with section three of this form.

I certify that this rollover amount is composed ONLY of money from acceptable sources listed under Section Two, and I have completed the information regarding the source of this money to the best of my knowledge. Also, if the distribution check was made payable to me, I understand that this rollover must be received and deposited to my account within 60 days of receipt of the distribution. I understand that, once invested, these monies will be subject to the terms that govern the Plan.

X

Signature of Employee

Date

Application must be signed, or form and check will be returned to you.

Please complete this application and return it with your rollover check.

For Fidelity Use Only

NIGO

Please provide the following optional information regarding the origin of this rollover: Plan Name: _____

401(k)

Governmental 457(b)

Conduit IRA (rollover IRA)

401(a)

Roth 401(a)/401(k)

Non-Conduit IRA
